Specialization: Nutrition and Dietetics

Patient Info

Full Name: Ms. Radha L

Birth Date: 09.08.1970

Med. Number: 60191234

IHI: 46758293

Phone: 9867452310

Email: radhal09@gmail.com

Assessment

The patient presents with symptoms of swelling (edema), irritability, fatigue, and a distended abdomen. Upon examination and review of the patient's nutritional history, it was determined that there has been severe protein deficiency in the diet over a prolonged period.

Diagnosis

Kwashiorkor - A severe form of malnutrition caused by inadequate protein intake, leading to symptoms like edema, stunted growth, and a distended abdomen.

Evergreen Wellness Hospital

123 KL Street, VS Puram , Coimbatore - 641002 India

Prescription

- Administer protein supplements (whey protein or soy-based) as per dietary needs.
- Oral rehydration therapy to treat dehydration and electrolyte imbalance.
